🌸 alternative 1 = assisted study with educator
 🌸 alternative 2 = FIT2 Certification (German)

Our Secondary School is born from the desire to offer a completely renovated school compared to the traditional model and adapted to the new learning styles of digital native students. The educational offer is revolutionary, designed on the new needs of students who have the opportunity to tackle most of the disciplines proposed by MIUR in English, accompanied by teachers in continuous training.

CLIL:

- ★ specific teaching methodology, integrated learning of language and content
- ★ certified Italian teachers, level C1 English language

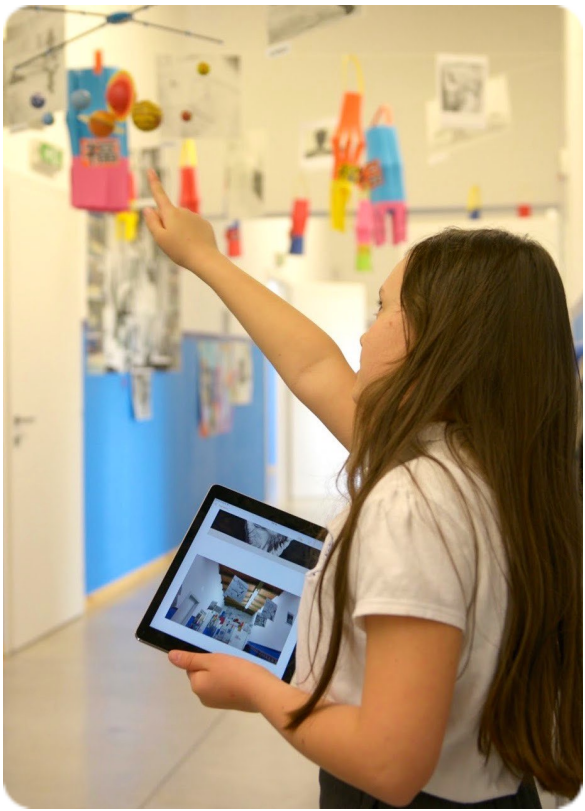

ADMISSIONS:

- ★ Kids International School has designed a special integration program for the sixth grade class. Specific personalized courses will be defined and will allow students to calmly face the English language and to access all the contents of the CLIL lessons.

OUR TEACHING METHOD IS BASED ON:

- ★ active participation and cooperative method
- ★ STEM, integration of Science - Technology - Engineering - Mathematics
- ★ use of new technologies: Ipad, multi touch monitor, coding as an extracurricular activity
- ★ communication skills in mother tongue, English and Spanish

Preparation for Cambridge exams with a native teacher

We prepare for

English Qualifications™
